

# 2<sup>ND</sup> GRADE CLASS DESCRIPTION

## WOW!

### **ENGLISH LANGUAGE ARTS!**

Our literacy program includes strategies and skills in Reading & Writing with an emphasis on understanding elements of each. Students will explore fiction and nonfiction texts while focusing on sight words, grammar, comprehension, and fluency.

### **MATH!**

Topics studied include addition and subtraction, number sentences, place value, telling time, and coin value. The students will also use critical thinking skills to decipher and understand various graph types and apply them to real world situations.

## LEARN!

### **SCIENCE!**

Students will engage in lessons involving systems of the human body including digestive and respiratory. Students will do experiments, learn about life cycles, weather and properties of matter.

### **SOCIAL STUDIES!**

Students will explore American history, symbols, and world history. Students will also learn skills related to map utilization, timelines, and how economics plays a role in our world. Students will research topics in government and geography.
